Good Morning,

I just received this request from EPA OPA. They are trying to anticipate questions that will arise and have asked for our input on the highlighted questions. A few of these are outside of our lane (food regulations, water) but they have a short turn around time on this to brief leadership here and would appreciate any help we can provide. Thanks

My contact info in the EOC is (202) 250-8921

Hi Ryan,

Thanks so much - Dale and I are working to gather answers for OPA by 10:00 today, we appreciate any expeditious help you could provide with your contacts. I've highlighted the questions where I can foresee the most help from your group, but feel free to add input elsewhere.
